

Jai Jinendra

I have been a JCSC member for 21 years, a JCSC volunteer for the last 8 years, and am currently honored to serve as an EC member. My daughter is a JCYC student, and my wife is a JCYC teacher. We live in Tustin, and you can often find me at the temple on Pathshala days. By profession, I am a technology executive at a Healthcare IT company.

Alongside other JCSC volunteers, I assist the center with the following:

- Setting up and administering networking, Wi-Fi, and A/V needs

- Managing our temple's online services, such as the WhatsApp community and Spectrum Internet

- Managing TVs, computers, printers, and software-related matters at the center

- Administering Google Workspace for Pathshala and other JCSC groups

- Managing the Digital Signage of slides and pictures on the TVs at the center

- Managing the Tithi Display at the center

In my current role as an EC member, my responsibilities include:

- Serving as EC liaison for the A/V team

- Serving as outgoing EC liaison for Pathshala management

- Serving as EC liaison for the culture committee

- Serving as one of the Technology leads for the center

- Serving as Assistant Secretary

- Serving as the RSVP program lead

I would greatly appreciate your vote, which will allow me to continue providing seva to our center as an active member of the executive committee.

Thank you!

Nilesh Shah
