

**Jai Jinendra,**

My name is Pinkal Doshi. I studied Commerce in India and am a proud mother of two sons. For over 20 years, my family and I have been actively involved with the Jain Center of Southern California (JCSC), maintaining a strong connection to our Jain values and traditions.

I am currently serving on the JCSC Executive Committee for the 2025–2027 term. This experience has given me a deeper understanding of our Jain Center's activities and responsibilities, as well as the opportunity to work closely with fellow community members.

Along with assisting my husband in his business, I am an artist and an active member of KalaCircle. It was a wonderful experience teaching Ghauli to our community members last year. I currently serve as the EC liaison for KalaCircle, STEM Club, Decorations, and Bhandar, working closely with these teams to coordinate activities and support their efforts.

I am grateful for the constant encouragement and support of my family. I value honesty, responsibility, teamwork, transparency, and open communication, and I approach every task with sincerity and dedication.

My journey with JCSC has been both meaningful and rewarding. I would be honored to continue serving our Jain Center, building on my experience while helping preserve our Jain values and traditions for future generations.

Thank you!

**Pinkal Doshi**
